

Fatima Islam

Data Analyst

fatimaislam.apm@gmail.com · linkedin.com/in/your-profile · your-portfolio-url.com · City, Province

Data analyst who turns open, public datasets into clear, decision-ready stories. Strong in data literacy — spotting where a headline metric misleads, segmenting to find the real pattern, and communicating the takeaway. Comfortable across SQL, Python, and Tableau, with a portfolio of six sourced, interactive dashboards.

SKILLS

- SQL
- Python (pandas)
- Tableau
- Data visualization
- Descriptive & inferential statistics
- Segmentation & cohort analysis
- Data storytelling
- Excel
- Statistics Canada / open data
- Dashboard design

SELECTED PROJECTS — full interactive versions in portfolio

How a health statistic gets misread · Statistics Canada

Showed Canada's crude cancer death rate rose (204→211/100k) while the age-standardized rate fell (178→164) — a data-literacy case on age adjustment.

Who the housing squeeze really hits · 2021 Census

Proved rental cost burden concentrates on recent and young renters: 45% of recent renters aged 18–24 cost-burdened vs 23% of established renters.

The gender wage gap, by who you are · Labour Force Survey

Intersectional read of the pay gap: 88¢ overall but 78¢ (racialized women) and 79¢ (Indigenous women) per \$1 earned by men.

Simpson's paradox: when the average lies · Berkeley 1973 (Bickel et al.)

Demonstrated a confounded aggregate: 44% men vs 30% women admitted overall, yet women fared equal/better in 4 of 6 departments once segmented.

What's actually driving inflation · StatCan CPI

Decomposed a 2.8% headline into components spanning +20.5% (gasoline) to +1.5% (shelter) — why one inflation number isn't anyone's real rate.

The growth was immigration all along · StatCan population estimates

Explained Canada's 2025 population decline (–0.2%) via components of change — growth had ridden almost entirely on international migration.
